PROFILE

Returning to the job market after a career break to re-train as a data analyst, I am now seeking a new opportunity to leverage my analytical, problem-solving, and communication skills. I bring years of experience as a quality assurance tester, along with a background in operational roles within the tech and travel industries.

WORK EXPERIENCE

Capgemini, Data & Insights
Stockholm, Sweden

Data Engineer Intern Sep 2023 - Mar 2024

- Developed a Power BI report for the Corporate Functions department
- Studied for industry certifications

Paradox Interactive
Stockholm, Sweden

Embedded Quality Assurance Tester 2017 - 2022

- Ensured the quality and reliability of the Stellaris computer game by reporting defects and providing feedback to game designers and developers on game features and mechanics
- Played a vital role in establishing agile testing best-practices in a cross-functional team

Maven Network
Edinburgh, Scotland

Operations Manager 2013 - 2016

- Coordinated the day-to-day operations of a small telecoms company
- Handled various tasks, such as accounting, HR and customer service
- Focused on customer retention, supplier relationships and hiring new talent to scale up the business

JAC Travel
Edinburgh, Scotland

FIT Assistant Manager and Customer Delivery Manager 2011 - 2013

- Coordinated the operations of the Offline FIT Department
- Ensured the retention of a portfolio of clients and delivery on financial targets, recruited and mentored new staff, monitored team and individual performance

FIT Operations Executive 2008 - 2011

- Processed bookings and requests from global travel partners, created travel itineraries, contracted and reserved accommodation and other travel services
